SUMMARY

Currently an Information Technology student with strong skills in Python, Java, and a solid foundation in DSA. Passionate about problem-solving and developing efficient, scalable solutions. Quick learner with hands-on experience in coding, OOPs, and basic projects. Eager to grow in tech by contributing to real-world software development.

EDUCATION

Manakula Vinayagar Institute Of Technology : B.Tech in Information Technology

2023-2027

GPA: 8.6/10.0 (Upto 3rd Sem)

Mutharaiyar Hr. Sec. School Pondicherry

SSLC: 82% HSC: 83%

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++

Web Development: HTML5, CSS3

Development Tools: Pycharm, VS Code

Familiar With: MySQL, JavaScript

PROJECTS

Driver Drowsiness Detection Using Python(Mini Project).

Developed a real-time object and face detection system to monitor traffic and driver drowsiness, enhancing road safety through advanced machine learning and image processing.

Tools Used: Python, OpenCV, TensorFlow, NumPy

Sports-Website using HTML, CSS(Mini Project).

Designed and built a responsive sports website with interactive features and optimized layouts, ensuring cross-browser compatibility and seamless user experience.

Tools Used: HTML, CSS

CERTIFICATIONS

Python Basics - Hacker Rank

Java Basics - Skill Rack

Introduction to MongoDB - MongoDB

Web Development Training(HTML, CSS) - CodSoft

ACHIEVEMENTS

- Second Place in Web page Development Competition (DataNerds)
 - 600+ Programming Challenges on Skill Rack
 - Participated in International Level Hackathon(24-Hours) - Code Fest 2025
 - Participated in TECH TONIC Software Hackathon '25 (Gyanith 2025)
-

AREA OF INTEREST

- Cybersecurity
- Artificial Intelligence & Machine Learning (Beginner Level)
